

Welcome to Indiana Department of Correction Internship Opportunities.

The Indiana Department of Correction (IDOC) has formulated a program to expand internship opportunities in specific academic areas for present college undergraduate students and recent college or university graduates. The Department has teamed up with **Indiana INTERNnet** to expand the awareness of IDOC internship opportunities.

College internship opportunities exist within areas of **Business, Education, Health and Social/Psychiatric Work**. Additional internship opportunities may exist among the Department's 34 adult and juvenile facilities and Central Office.

The following presentation outlines the internship application process, eligibility, schedules, program lengths, locations, benefits, expectations, reasons for participating in an internship, and internship questions and answers.

This internship information is being distributed to Indiana college and university admission, career and placement centers and is available on-line at www.state.in.us/indcorrection and IndianaINTERN.net.

IDOC internships are intended to provide meaningful opportunities for participants to apply their academic studies in an actual work environment. This also exposes college students and recent graduates to the myriad of “***Careers in Corrections***” possibilities.

Please share this information with appropriate staff, students, and alumni. Questions can be directed to the Department's Human Resources Division contacts. Thank you for your interest in the Indiana Department of Correction.

Sincerely,

William K. Kromann, Director
Human Resources Division
